

Product Summary

Thieves® Waterless Hand Purifier utilizes powerful essential oils to clean and purify hands. Moisturizing emollients, like aloe vera, enrich our formula and add hydrating benefits.

The larger 7.6 oz. bottle is ideal for every room in your house. Making a family-sized bottle readily available could increase your family's use and motivate children to be proactive in keeping their hands clean. Use Thieves Waterless Hand Purifier as an optimal tool when trying to increase your family's overall hygiene.

Primary Benefits

- Purifies and cleans hands with powerful essential oils and plant-based ingredients.
- Larger 7.6 oz. bottles will increase your family's use and overall hygiene.
- Offers the skin-moisturizing benefits of aloe vera and vegetable glycerin.

Who Should Use Thieves Waterless Hand Purifier?

Young Living customers and their families, including children

Suggested Use

Use as often as necessary. Apply a nickel-sized amount to the palm of hand and rub until completely absorbed.

Caution

- Keep out of reach of children.
- For external use only.
- Do not use on or near the face.
- Avoid contact with eyes.

Complementary Products

- Thieves Foaming Hand Soap
- Thieves Cleansing Bar Soap

Did You Know?

- According to the CDC, about 80% of all infections are spread through the hands, making hand hygiene especially significant when in public where soap and water isn't always readily available.
- Hand purifiers do NOT lead to the creation of superbugs. According to the FDA, triclosan is the concern since it is found in many antibacterial hand soaps.
